

AI & the Digital Ecosystem

Overview

This award is designed for those wishing to discover how a digital ecosystem is fundamental to the operations of any modern business and, with the addition of AI, how it can enable an organisation to provide a better service for its customers and manage its data.

Candidates will develop an understanding of the concept of AI, how it fits into the digital ecosystem and its relationship with data, plus look at what's next for AI development in organisations.

Key information

- Level 3 Award (SFIA) sfia-online.org
- 4 x 2-hour live online training sessions
- 50 hours of learning
- Mock exam & feedback + BCS exam

£495 +VAT

Who is this award for?

- ✓ **Business professionals** wanting a clearer understanding of AI and how it can transform their business
- ✓ **IT practitioners** looking to move into AI or machine learning
- ✓ **Individuals** who want to know more about the power and potential of artificial intelligence in our society

Course content

- ✓ Key components of AI
- ✓ The relationship between AI and data
- ✓ AI and the digital ecosystem
- ✓ The potential future of AI

Exam format

Assessment is through an invigilated online exam, available only at the registered date / time.

It will be 30 minutes (online and supervised) and consist of 16 multiple choice questions and 2 scenario-based questions. The pass mark is 65%.

Adjustments or extra time can be requested under the BCS Reasonable Adjustments Policy if you have a disability or other special considerations.

Entry requirements

There are no formal entry requirements. These courses are open to anyone interested in building their AI skills, although some professional experience in a business or IT environment may be beneficial.
