start dates

Training Model

This apprenticeship is designed for individuals working in a position which requires them to create AI solutions and provide advice on the use of AI.

1x fixed live online weekly training session.

Live online training sessions.

Our AI Data Specialist Level 7 Accelerated Programme enables individuals, who have completed the Level 6 AI Engineer apprenticeship with us, to achieve the full Ofqual-regulated BCS Level 7 AI Data Specialist qualification in just six months.

Programme Timeline

1 Eligibility Criteria

- ✓ Level 6 AI Engineer Apprenticeship

Required:

To join our accelerated programme, completion of LearnTech's Level 6 AI Engineer apprenticeship is required.

2 Deep Neural Networks (Adv.)

6 weeks

Module focus:

Targeted training on Advanced Deep Neural Networks & Generative AI, complementing the enhanced modules already covered in the Level 6 AI Engineer apprenticeship.

3 Level 7 Assessment

Up to 16 weeks

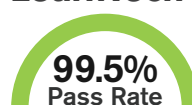

What happens:

Level 7 BCS assessment will commence. This assessment is the same as the full Level 7 AI Data Specialist apprenticeship assessment.
